BE MORE DATAWISE

Data can help us make the right decisions for the people we help, spotting problems before they happen and identifying solutions in ever changing political and socio-economic conditions. It can help us:

- understand why our interventions work
- prove that we're doing the right things
- provide evidence for funding bids
- influence decision makers
- create / adapt services that meet needs

Datawise London offers short, free and low cost training and one-to-one support to help you better use data.
