

Rita Chadha

- 30 years plus of working with equalities issues in the not-for-profit sector
- 10 years as CEO of RAMFEL (Refugee and Migrant Forum of Essex & London)
 - took the Government to court over the 'Go Home Vans' campaign
 - challenged the Home Office over policing techniques
- Previous Interim Director at MRN
 - supporting strategic litigation in MRN vs NHS Digital and the Home Office (challenging the data sharing memorandum between the NHS Digital and the Home Office)
 - helping to **gather data** for the key case of Tier One applicants
- 1 of 4 representatives on the London Strategic Migration Partnership since 2012, leading a working group on the hostile environment in London
- Currently director of a new organisation called Localising Equality, which looks at the link between local action to address equality and public services

DataKinduk

Our programmes

Data Therapy

'Office hours'- light touch analytical support to social change organisations- come with any data question! **bit.ly/DKUKofficehrs**

Support to data scientists working in non profit organisations

DataDives

Working with social change organisations to provide insights into social problems: Two months of data scientists volunteering on data cleaning and defining questions, followed by two day analysis event

DataCorps projects

Six- nine month in depth projects embedded within a social change organisation to develop data products

Data Responsibility

Support to social change organisations to develop and implement responsible digital/data products and services

Superhighways

Providing tech support to the sector for 20 years

- Training
- Support
- Consultancy
- Digital inclusion
- Impact Aloud
- Digital Leadership

Data frames media & public opinion

Numbers frame stories and fuel tensions

The holy grail of data – evidence based policy making

UK immigration and emigration 1965-2015

Immigration Emigration

SOURCE: OFFICE FOR NATIONAL STATISTICS

Source: ONS. Figures are for the 12 months to the given date

Public opinion

Figure 1. Change in Perception of Leaders and the Public 1998-2002: Percent Seeing Immigration as a Critical Threat

Over the Decades, American Public Generally Hasn't Welcomed Refugees

% who say ...

Source: Gallup (Hungarians, July-August 1958; Albanians, May 1999) CBS/ New York Times (Indochinese, July 1979; Cubans, June 1980)

PEW RESEARCH CENTER

As a sector we challenge numbers with case studies based on lived experience

The manipulation and exploitation of data by Home Office

- CHAIN data on homelessness services shared with Home Office for enforcement
- Targeted immigration enforcement operations
- Use of warm contacts
- NHS Data Sharing Memorandum with Home Office
- Immigration exemption in Data Protection Act 2018 (under judicial review) which prevents migrants gaining data about themselves
- Use of social media data by Home Office for decision making
- In the London context, The Way Ahead and Funders Coalitions are increasingly interested in data

Taken together...

...this is why there is a specific need for a focus on how refugee and migrant organisations in particular use and maximise their understanding of data

Over to you...

Introductions – you and your organisation

• Can you think of a personal or professional data encounter you have had in the last 24 hours?

• What are you hoping to get out of the session?

Refugee and Migrant Civil Society Data Project – what's in this for you?

- Improve your collection, usage and storage of data
- Help shape an ethical standard for the sharing of data
- Develop better fundraising opportunities through a more nuanced use of data
- Develop strong public campaigns and policy positions based on data usage

Data Needs Survey

- 26 responses to date
- Organisations
 ranging from 0 60
 staff
- 5 organisations with dedicated data roles
- 5 providing OISC advice
- Range of generalist and practical support

How much of a priority is data and analytics in your organisation as a whole? Please tick one.

Answered: 26 Skipped: 0

 \sim

To what extent does your organisation use data for the following purposes?

To what extent do you agree / disagree with the following (strongly agree or agree)

Everyone is on a digital/data journey!

How data mature is your org?

The Themes of Data Maturity

Developed by: DataKind UK & Data Orchard:

http://dataevolution.org .uk/the-framework/

SKILLS

Internal capacity, roles and skill levels, access to external knowledge and expertise.

LEADERSHIP

Attitude, investment, plans for data development, alignment to business plans, capability.

Exercise: How Mature Are You?

- Use the data maturity framework to assess how mature you are!
- How mature are your friends? Talk to your neighbour!
- Bring it to the room. Do we have some more growing to do?

Tools & applications – storing data

Comments...

- The software we use is not fit for purpose
- We have an inadequate data system
- Systems are too costly for us
- Our basic database doesn't allow us to input more than just personal details and reason for the visit, so it's hard to retrieve qualitative data
- This is the part of work I, as overall project manager, struggle most with

What digital tools/applications do you use to collect, store & analyse data

Mentimeter

From paper to online data collection

"The google forms have been so useful! It is amazing to see the answers compiled into graphs and charts straight away."

"I no longer need to persuade the Team Leaders of the need for digitising our data collection - it is being automatically driven by GDPR!"

Making the most of Excel..

- Sorting & Filtering
- Conditional formatting
- Countlf
- Pivot tables

"I believe very strongly that charities benefit from investing in upskilling their workforce around IT and **Excel** is a fantastic tool:

- Easy for staff to learn how to use
- Cheap to build
- Fun to use!

- Great for reporting!
- Give us confidence we know our project
- Easy to analyse trends"

Interrogate, Shape, Fund, Grow, Report!

Excel for Monitoring & Evaluation

• I will be able to present data to staff and trustees in much more digestible ways. This will capture their interest and help them to understand what the data means

• I hope it will help ensure our service planning is based more on data rather than on what we think we know e.g. more easily see whether service use is representative across the borough or whether carers in some areas make more use of services than others

Affordable off the shelf online databases

Makerble

Choosing the best fit?

• Data audit – input from across organisation

Database /	Application	Who uses it?	What is it used for? Include	Have any reports been	What problems /	What would make
system name	e.g. Word /	(Which staff /	type of data stored e.g.	set up to automatically	frustrations do you	use of the 'system'
e.g. Member	Excel /	project)	names, attendances, work	generate? Provide	have using this	more effective?
list	Access /		carried out	details	'system'?	
	other					
1		1		1		

- System brief driving factors, reporting needs, support, budget etc
- Shortlist systems & options appraisal
- Select system & provider / Tender process

Infographics for impact

Simplest map creation...

Paste data sets with postcodes & create a map!

Google My Maps

- Add multi-media
- Add different layers (max 10) including markers & outlines e.g. borough, ward, post code boundaries (get KML files from <u>Mapit</u>)
- Customise look and feel

Data analysis / visualisation - next steps

<u>Carto</u> – non profit application for the Builder application

<u> Tableau</u> – non profit discount available via <u>Tech Trust</u>

Do you use data for decision making?

How can we use data?

- Understand need and demand
- Effective campaigning
- Improve operational efficiency
- Understand the people we work with
- Evaluate services

Tameside Oldham and Glossop Mind

Questions & Ideal Outcomes

1. How effective are our relationships with other organisations who refer clients?

 \rightarrow **Partnerships:** Identify which partnerships and neighbourhoods to prioritise

1. Who accesses our services and where?

 \rightarrow **People**: Identify which clients and which neighbourhoods to prioritise

1. How effective are our services in supporting our clients?

 \rightarrow **Prevention**: Identify how services could be improved

Q1. Exploring referral partners

Q1a. Partnerships (number of referrals, locations, issues worked on)

Referrer	Clients referred	Registered patients	% Referral rate
Royton & Crompton Family Practice	335	16,794	1.99%
Failsworth Group Practice	205	12,837	1.60%
Saddleworth Medical Practice	135	14,330	0.94%
Pennine Medical Centre - Mossley	118	11,636	1.01%
Quayside Medical Centre (Failsworth District)	113	5,902	1.91%
Springfield House Medical Centre	111	9,972	1.11%
The Oak Gables Surgery (Crompton)	110	9,368	1.17%
Anonymised	101		
Moorside Medical Practice	99		
Woodlands Medical Practice	97	9,528	1.02%
Positive Steps Oldham	95		
The Parks Medical Practice (Royton Health)	94		
St. Chads Medical Practice	89	2,954	3.01%
Royton Medical Centre (Market Street)	85		
Alexandra Group Medical Practice	83		

Used Open Data (from NHS Choices to calculate percentage of referrals from partners.

Helped them to see which partnerships they should focus more attention on

Q.2. Where do people access services Q2a. Active Monitoring and Drop In by client neighbourhood

Clients who live in Manchester are much more likely to visit venues in Cluster 5 – this is the closest cluster to central Manchester

We would expect to see a pattern of clients visiting venues where they live – this trend is not evident for clients who live in cluster 1 or 5.

Clients who live in cluster 1 are more likely to visit cluster 5 venues

Clients who live in Cluster 5 are visiting venues in all clusters, with no pronounced preference

Q.3. How effective are services in supporting clients?

Q3a. Types of clients more likely to return?

- Across all issues, the majority of people who returned to Active Monitoring selected an Anxiety/Stress related workbook -
- 2. Recommend to include leaflets/ exercises for Anxiety/Stress in other workbooks as these are a common factor across clients regardless of initial workbook selection
- 3. No Anger Management clients returned for the same workbook

Are there any kind of clients who are more likely to return?

- Across all issues, the majority of people who returned to Active Monitoring selected an Anxiety/Stress related workbook - especially clients who previously dealt with Depression
- Recommend to include leaflets/ exercises for Anxiety/Stress in other workbooks as these are a common factor across clients regardless of initial workbook selection
- 1. No Anger Management clients returned for the same workbook

- Coalition for Efficiency (<u>Measuring the good</u>)

Concerns you have raised so far....

- Technical concerns
- Ethical concerns

What would you like to do more of with your data?

Some snapshots from survey responses so far...

- Use it to both shape our strategy and decision-making, and help us to be more effective with our fundraising
- Given the dearth of good quality data in our sector, we'd like to do more to publish what we've got
- Use it for campaigning on behalf of refugee communities we support
- Track progress and change in meaningful ways, test and evaluate new approaches
- Analyse existing data more effectively, capture data more efficiently
- Use data-informed narratives is something we would love to do more of

Technical concerns – key issues from survey

- Having the right database for management and capturing data
- GDPR, consent in other languages, third party consent, inferred and implicit
- Asking the right questions of beneficiaries
- Avoiding assessment fatigue with beneficiaries by repeatedly asking questions

Ethical concerns – key issues from survey

 Contextualising data and use of language, how to best present the data story

• Use of social media by advisors and beneficiaries

• Using data without referencing and acknowledging properly (both our own and when we use the research of others)

Do you use external data sources?

Useful data sources

- Excercise choose a borough and answer questions on data sheet
- Look at useful sources handout
 - International
 - UK Official
 - Local context
 - Universities and think tanks

Thank you for coming!
