

**This is a free online skills site that is designed to train anyone from a complete beginner, who has never touched a computer, to someone who just wants to learn a simple online skill.**

You can get help with basic computer skills like using a mouse and keyboard; set up an email account; how to search for information net. There are also training sessions on how to use online banking; posting on Facebook and how to manage your health online.

Plus there is help with using smart screens like tablets and mobile phones; and how to set up and save money on your internet connection.

You can use this site on a PC, Tablet and even a smartphone – so you will never be more than a click away from help online.
