Data collection

Types of data

User data

Asks: demographics, characteristics, reason for coming service

Establishes: your target audience, who you are serving

Engagement data

Asks: how people engage, frequency, why they stop

Establishes: the extent to which people use your services and how

Service data

Asks: what they liked / didn't like, why, what they would change, what is special

Establishes: whether users are satisfied and your service is working as intended

Outcome data

Asks: what has changed as a result of using the service, what have people gained

Establishes: short-term and long term impact on people's lives

Types of data

How do you use it – sorting exercise

- Measuring impact
- Influencing funders
- Promoting services to the public
- Ensuring accessibility

Download and complete it now!

This worksheet contains step-by-step guidance to help you review the type, quality, and purpose of your existing data to ensure you can make effective decisions during a crisis. We have also created an excel version to support you with larger quantities of information.

[DOWNLOAD THE WORKSHEET NOW](#) 

[DOWNLOAD THE EXCEL VERSION](#) 

INSPIRING IMPACT

Need to add in new
links

Keen to review your data as a team?

We know reviewing your data in isolation can lead to gaps in knowledge, so we have created a quick 30 – 45 minute team exercise to help start unpicking the info you need to fill in the worksheet.

We have prepared a series of slides (with notes) to help you run the exercise with your team.

[DOWNLOAD NOW!](#) 

Using your data

Defining a hunch – video exercise...

- ✓ “Young people in the south of the borough aren’t accessing our youth group”
- ✓ What could Alice do next?
- ✓ Discussion in breakout rooms (10 mins) then brief feedback 2 ideas for further exploration

Recap on steps

- ✓ Exported current data on numbers of young carers on their database
- ✓ Used Excel to analyse spread across top level post codes (used Split columns and Pivot tables to Count nos & Charts to visualise)
- ✓ Compared against attendance at the Youth club
- ✓ Used to evidence the gap and source funding for the mini bus (using a local Community transport scheme)
- ✓ Compared 6 months later to see the change

12+ Youth group Attendance before and after transport grant and introduction of minibus service

Best practice data tips

- ✓ Compare like with like – use full data sets
- ✓ If your sample size is less than 50, use numbers instead of percentages
- ✓ Be mindful of factors that can skew your data
 - ✓ Can you generalise? Is it representative? Response rate? External factors? Timing? Halo effect?
- ✓ Investigate unused data – are there similarities in people who drop-out or don't use a programme? Do you ask why?

What is YOUR data hunch?

I'd like to
investigate...

My hunch is...

- ✓ Have a think now...
- ✓ We'll come back to this a bit later!

Quick break

Using external data

What external data are you currently using?

Advice trends

www.citizensadvice.org.uk/about-us/difference-we-make/advice-trends/

Advice trends summarises Citizens Advice service top level statistics. It is aimed at national government departments, regional agencies; third sector organisations concerned with advice or policy and policy researchers.

Ethnicity Facts & Figures

www.ethnicity-facts-figures.service.gov.uk/

Headline figures from each government department detailing ethnic inequalities in the UK.

London Datastore

data.london.gov.uk

The London Datastore is a free and open data-sharing portal where anyone can access data relating to the capital.

London's Poverty Profile

www.trustforlondon.org.uk/data/

Official data from over 100 indicators, revealing patterns in poverty and inequality.

Metropolitan Police

www.met.police.uk/sd/stats-and-data/

Tools to help see what local police forces are doing to combat crime, identify different types of crime and map out different crime stats.

Nomis

www.nomisweb.co.uk

Data from a range of surveys, including the 2011 Census. Enter a location and get a report detailing population characteristics of the local area.

Public Health

fingertips.phe.org.uk/

Rich source of indicators across a range of health and wellbeing themes that has been designed to support JSNA and commissioning to improve health and wellbeing and reduce inequalities

Stat-Xplore

stat-xplore.dwp.gov.uk

Explore Job Centre data, including types of benefits received, and rates that sanctions are applied, by area and individual characteristics.

The London Intelligence

www.centreforlondon.org/project/london-intelligence/

Quarterly publication from the Centre for London, that identifies the changes taking place in the City to help policy makers prepare and plan for the future. Analyses the latest data under five major themes: Demography, Economy, Infrastructure and housing, Society and Health and environment.

UK Data Service

www.ukdataservice.ac.uk

Holds a range of social, economic and population datasets. They also publish 'how to' guides and case studies of effective use of data.

Understanding Society

www.understandingsociety.ac.uk

Search results from academic research using the UK's largest representative household survey.

Ward Profiles and Atlas

data.london.gov.uk/data-set/ward-profiles-and-atlas

Provide a range of demographic and related data for each ward in Greater London. They provide an overview of the population in these small areas including data on population, diversity, households, life expectancy, housing, crime and employment.

Who runs London

www.londoncouncils.gov.uk/who-runs-london

London Councils publish data from London's local elections, London MPs and their constituencies and data looking at 50 years of political control of the boroughs.

YouGov Results

yougov.co.uk/results/

Runs surveys of public opinion on topical issues, with gender, age and social class breakdowns.

Welcome to DataWand

DataWand is a free and open website designed so that users can easily access local data relevant to the London Borough of Wandsworth. This site brings together a collection of data from nationally recognised sources, across several themes to provide a full overview of the borough and how it compares locally and nationally. You can easily view and download data and create your own maps.

To get you started, use the tabs above and options below to explore or see our How To section for video tutorials on using the website.

Community Safety 	Economy & Employment 	Environment 	Equalities 	Health & Social Care 	Housing 	Population 	Deprivation 	Children and Young People

London's Poverty Profile

Official data from over 100 indicators, revealing patterns in poverty and inequality.

Populations

Key findings

39%

of children in London are living in poverty.

45%

of children living in households in poverty in London are classed as materially deprived.

London Poverty Profile: Quick Question

- ✓ Which borough has the highest proportion of children living in poverty before housing costs (bhc)?
- ✓ *Navigate to explore by People and then choose Children. Look at the options on the left hand list and choose Children in poverty before and after housing costs. Look at the chart and find the borough with the highest yellow and blue dot.*
- ✓ Answer: Barking & Dagenham – 29%

Children in poverty before and after housing costs

GCSE attainment in English and Maths by London borough

GCSE attainment in English and Maths, by population sub-groups

Households affected by the benefit cap

Infant mortality

Infant mortality by London borough

Material deprivation of children

Poverty and family structure

Poverty and life stages

Poverty before and after housing costs by age

Poverty definitions and thresholds

Poverty for London adults, children and pensioners, by family work status

Poverty rates by demographics

Schools and income deprivation

Digital tools

FOR DATA COLLECTION, ANALYSIS & PRESENTATION

Collecting data

Create and publish free surveys online in minutes with **Google Forms**. View results graphically and in real time.

With **Microsoft Office 365** forms you can easily create quizzes & surveys and see the results as they come in.

Create and publish online surveys with **SurveyMonkey**. Basic free account does not allow export of data to Excel.

Create a **QuickTap** survey online and collect responses using a tablet even when you are offline. Starts at \$16/month.

Mapping data

Use **Batchgeo** to easily create maps by copying and pasting postcodes from Excel. Add other data and map pins will be colour code accordingly.

Google MyMaps allows you to plot pin data but also add up to 10 layers including shape files e.g. Borough / Ward outlines.

Input a postcode, and **MapIt** returns the constituency, council area & ward and more. You can also download area shape files.

Useful tool for batch post code look ups and downloading top level post code shape files

Phil's Story

After years in a high-pressured corporate environment, Phil felt burnt out and needed a complete change of direction. He ended up working as a carer - a job he really loved.

But the pandemic hit and his hours were dramatically reduced. This meant Phil couldn't afford the high cost of rent in Kingston.

After a spell of house sitting and sofa surfing, Phil was put in touch with KCAH and offered a place on the Access Project, our

"When lockdown happened, my hours literally went down to about an hour a day, because the man I care for has multiple sclerosis and is very, very vulnerable. Normally I take him out to lots of places, but because he had to shield, I was only able to spend about an hour with him each day, helping him in and out of bed. I was really struggling then, with almost no work.

The support that I received from KCAH has just been absolutely brilliant. During lockdown, I once only had £10 to last me two weeks. KCAH arranged for food to be delivered to me by volunteers. They were delivering so much food, I had to ask them to deliver every other week! It was such a great thing and I'm truly grateful! I can just say that despite a really stressful situation, the support that I've been given

Section 1: Uses

This section is about the purposes for which your organisation uses data. As far as possible respondents are encouraged to think 'whole organisation wide'.

To what extent does your organisation use data for the following service-related purposes? Note: The term 'clients' is used as an overarching term for beneficiaries/customers/service users.

	extensively	moderately	a little	not at all	don't know/not applicable
Recording activity/work with clients	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Measuring <u>service quality</u> and performance	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Measuring the difference you make e.g. <u>outcomes</u> , <u>impact evaluation</u>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Evidencing the needs/problems you seek to address	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Understanding the types of clients/environment you serve (e.g. <u>profiles</u> , characteristics)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

NEXT

You scored your organisation in the Emerging Stage

Your overall score, based on the average across the seven themes, was **2** out of **5**. You have scored your organisation strongest in **Data, Uses, Analysis**. Your responses indicate priority areas to focus on are likely to be **Culture, Leadership, Skills**.
