in depth longer term support (e.g. database implementation or short films). There have also been two annual events with expert speakers invited to run specialist workshops, which otherwise would not be accessible to small groups targeted by the project.

The map below shows the spread of the 319 unique organisations that Impact Aloud has supported across the six boroughs over the last 2.5 years.

See [www.superhighways.org.uk/projects/impact-aloud](http://www.superhighways.org.uk/projects/impact-aloud) for further information.

### 5. Evaluation aims

The aim of this evaluation is to explore the experiences of CVs and VSOs that have worked with Impact Aloud over the last 2.5 years. The evaluation investigates the extent to which the activities of Impact Aloud result in positive impact on organisations. It focuses in-depth on providing information on the assumptions inherent in a simple logic chain below:

In exploring these questions, the evaluation seeks to understand the strengths and weaknesses of Impact Aloud in realising these objectives.

### 6. Methodology

Feedback from stakeholders was collected through an online survey and via telephone interviews in March – April 2016.

#### Survey

The survey was sent to a sample of the total number of organisations engaging with the project - the 131 organisations that had attended the annual Impact Aloud events. Of these, 34 responded to the survey; a reasonable response rate of 26%. There was a mixed spread of respondents across the six boroughs with the highest response rate from Kingston – the lead borough in the partnership (Kingston=11, Bromley=8, Richmond=6, Sutton=6, Croydon=5, Merton=2). Respondents were given the option to add their name and contact details if they were willing to be contacted for a follow up telephone interview, otherwise responses were anonymous. Of the 29 respondents that gave their contact details, 6 also participated in telephone interviews. The questions generated quantitative and qualitative data which is included in relevant sections throughout this report. The full set of survey questions is included in appendix A.

#### Telephone interviews

Telephone interviews were conducted in March – April 2016 with a mix of organisations suggested by Impact Aloud and organisations randomly selected by the evaluator. The rationale for this type of selection was to obtain a balance between organisations that had been known to have significant interaction with Impact Aloud and those that had had various levels of engagement. The topic guides for different stakeholder groups is included in appendix B. A breakdown of the organisation types, selection methods and number of participants interviewed in each cohort is presented below.

Organisation Type	No. Organisations
CVs	5
VSO (suggested by Impact Aloud)	4
VSO (randomly selected by evaluator)	5
Funder	1
Technology provider	1
<b>TOTAL</b>	<b>16</b>

#### Profile of VSOs

The table below gives some brief information on VSOs involved in telephone interviews including size and income.

Income	Organisation	Overview	No. staff
\$10,000 - \$50,000	Sutton Migrant Refuge Network	The Refugee & Migrant Network Sutton offers Friendship, Advice, Counselling and English Language Classes to refugees, asylum seekers and newly settled migrants and their families from over 20 countries, who are now living in our area.	1

Questions to ask yourself...

- ✓ Is the map for internal planning / operations?
- ✓ Or will you be sharing externally?
- ✓ Is the data personal and sensitive?
- ✓ How can you ensure you're not identifying people?
- ✓ Does mapping fit the purpose for which you collected the data?
- ✓ What will you do when the project's finished?
