Community Lens V0.1

## Community Lens

Match open datasets to the areas you work in to learn more about the needs of local communities.

[Learn More](#)

[Use now](#)

Paste data sets with postcodes & create a map using [Community Lens](#).

You can show that your activities are reaching people in areas of need as this compares with Indices of Multiple Deprivation

[DEMO recording](#)

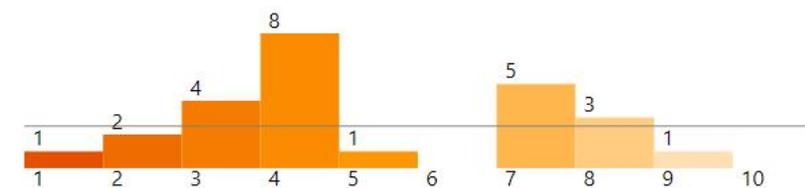

## The Lens of Multiple Deprivation

### Summary

The majority of the locations (64%) are in the bottom half of areas in England for IMD

### Count By Decile

(Decile 1 = Most Deprived, Decile 10 = Least Deprived)

### Average Rank Decile

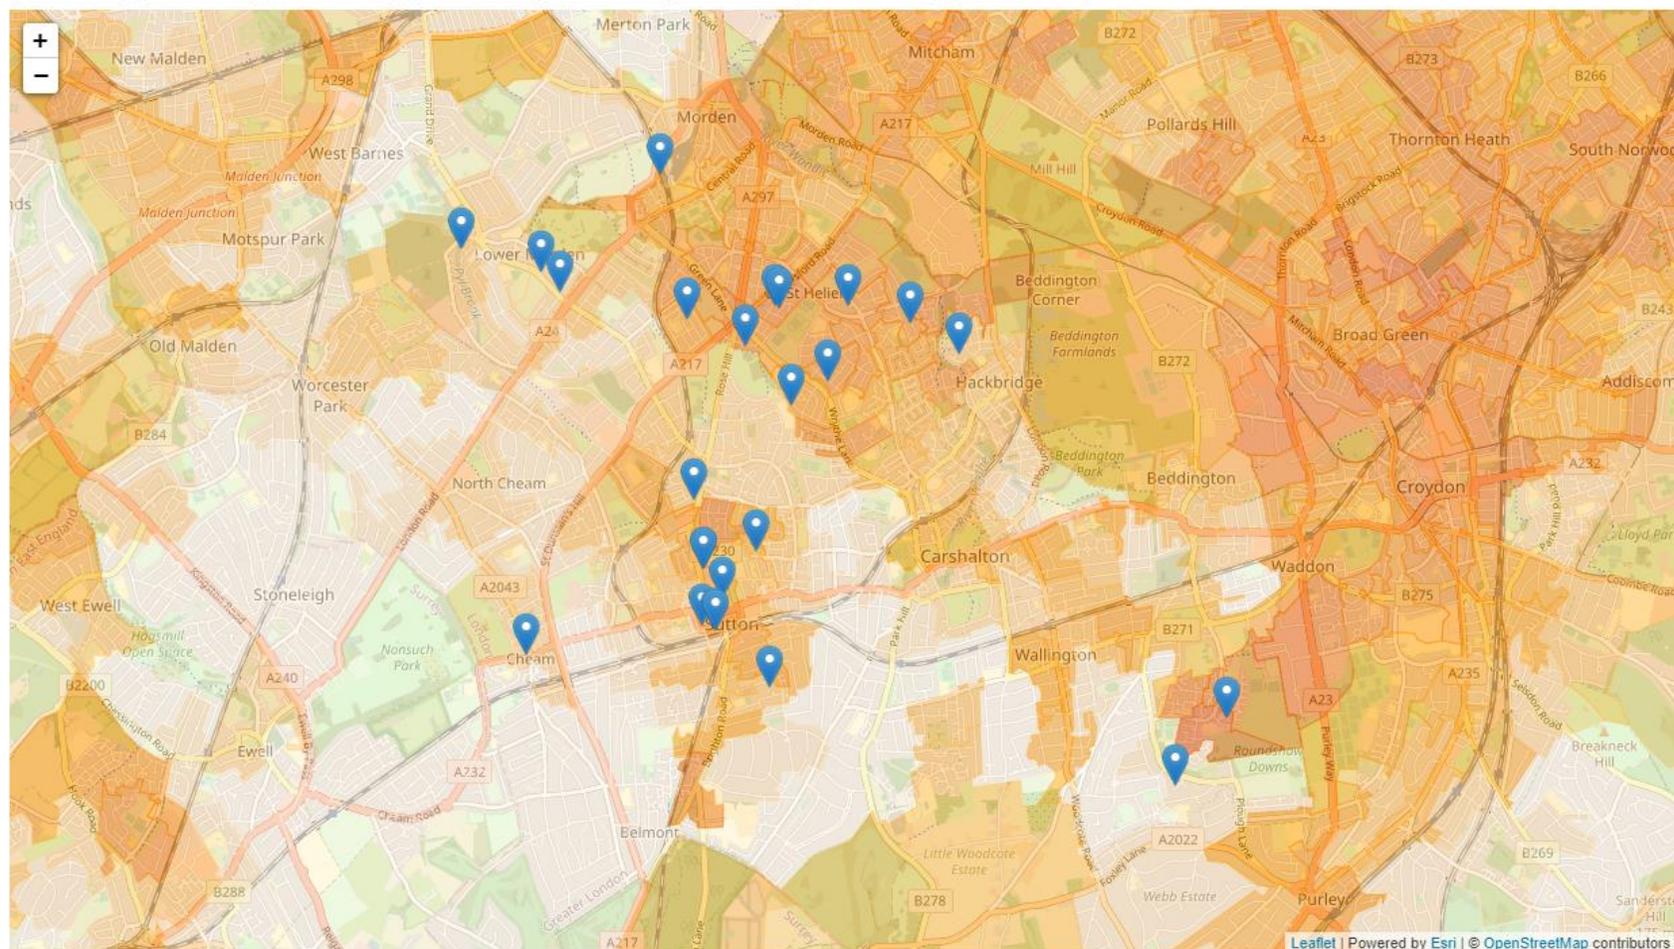

### Definition

The overall Index of Multiple Deprivation 2019 is a measure of multiple deprivation based on combining together seven distinct domains of deprivation, Income Deprivation, Employment Deprivation, Education, Skills and Training Deprivation, Health Deprivation and Disability, Crime, Barriers to Housing and Services, Living Environment Deprivation.

Audio inserted from Audioboom into Prezi presentation

# How to look for themes part 1

**Step 1** – highlight first level themes that relate to what you are trying to show directly from what people say.

You may even simply copy out important bits of text into another document

## **Man and Boy:**

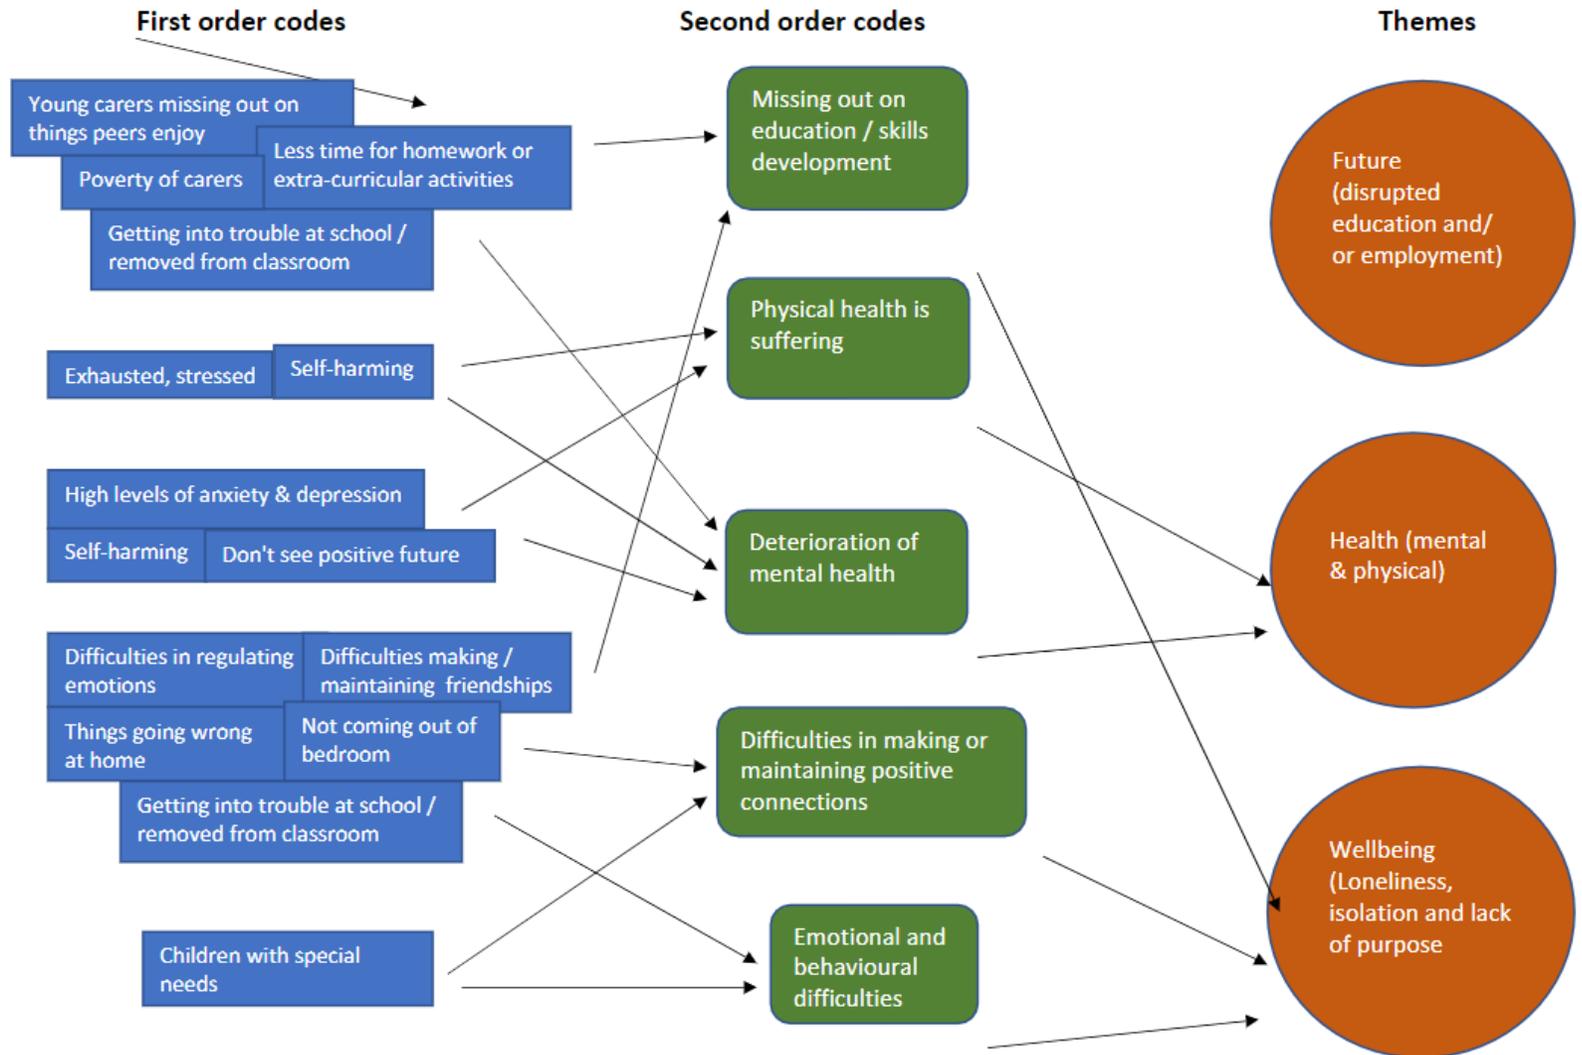

"We've got loads of stories of the impact that we've had. One in particular, I remember is a family who I went to visit on a visit every family beforehand. But I think that's the key with engaging with the families is to engage with the man and get alongside them, to encourage them to start the programme. Once they're on the programme, then it's fine. It's so we meet them in a coffee shop, we have a chat, we talk about what the banner boy does.

This particular man, he wasn't very interested. I think he was just a little bit depressed. And I went away. And we decided that we wouldn't take it any further. Three or four months later, he texts me and asked for my help. And he asked if you'd come on a camp because things had gone wrong at home. We took him on, he came on a camp, and we use some therapeutic questions on the camps, questions that the boy can ask the man and the man can ask the boy just to help each other, perhaps open up a little bit in a safe sort of environment. And afterwards, we follow up the men and the boys to see how the camp went. And a couple of weeks after that, I found to ask how it was. And to my surprise, the boy beforehand, he was self-harming, nine-year-old boy self-harming and not coming out of his bedroom, getting into trouble at school. And he the man said I can't believe the change in this boy. He was able to talk to me for the first time about how he was feeling on the camp. And now he's engaging with a family, is coming down, doing the washing up and playing in the garden. And he's stopped the self-harming and he's doing really well at school. And just I'm not saying that we are the answer because we're not on it. There's lots of other things that impact but sometimes we are a catalyst for some change in that boy's life just giving them space and time to say how they're feeling in a sort of safe environment. So that's a really encouraging story for me."

# How to look for themes part 2

Now you can start grouping what people say.

# **‘Hard’ theming**

Finding and sharing patterns from lots of text with Word Clouds

# What's a Word Cloud?

A word cloud is a visual representation of words used to highlight popular words and phrases based on frequency and relevance.

They provide quick and simple visual insights that can lead to more in-depth analysis.

information

analysis

numbers

scary

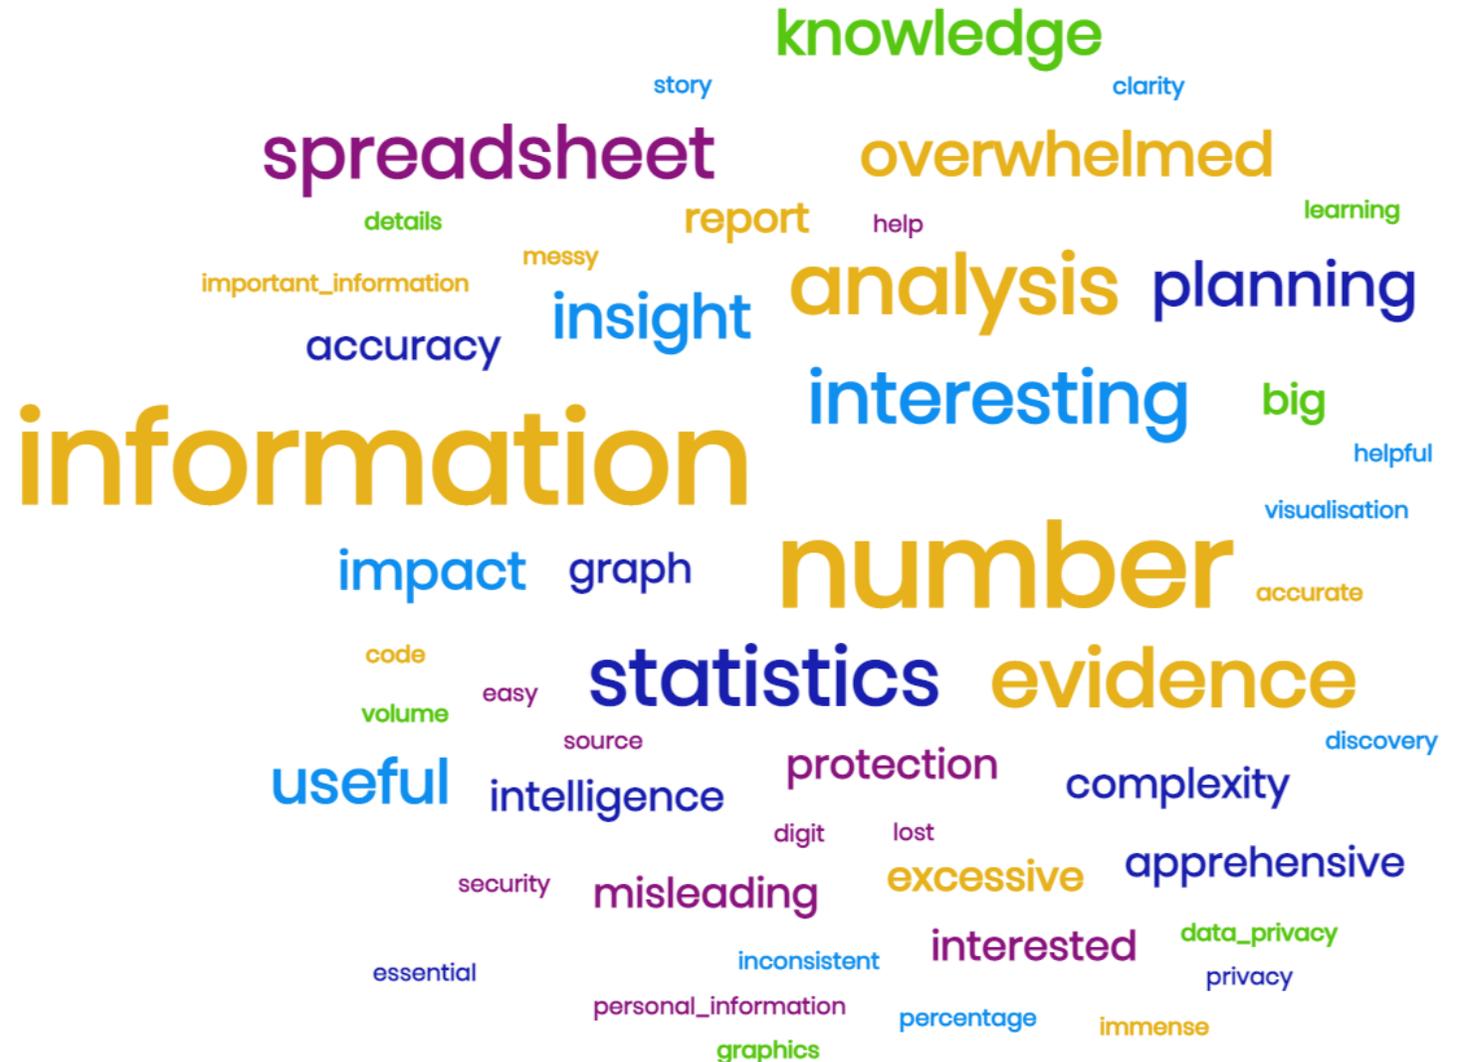

research

# Finding patterns with Wordclouds

We asked our Data Essentials training participants over a year: What does the word DATA mean to you?

(We used [Mentimeter](#))

# Your Wordcloud task

Your turn to create a Word Cloud using **WordItOut**

- ✓ Follow this [step by step guide](#) using data from free text responses to a digital exclusion survey.
- ✓ Here is the [sample response](#) data you can use.

# Should I use a word cloud?

- ✓ Clear 'stop words'
- ✓ Simple question
- ✓ Often needs context – how much?
- ✓ Not always a good indicator of sentiment

# Turning talk into numbers

Counting themes  
in text...

# Digital Exclusion survey responses Excel export

## Identified themes and counted frequency

What opportunities do you feel your service users / communities are missing out on because of digital exclusion? (In other words - how are they being disadvantaged?)

Home Learning

Access to different services and support

Important updates on COVID-19 restrictions

Ways to support their own well beings in terms of staying connected

Communal support

Applying for funds or benefits

Local information about their community, what's on etc

Support to help families with SEN children e.g. one mum wanted to find some Makaton exercises but did not succeed.

Home-schooling and/or regular homework:-

1. Children fall behind

2. Not being able to support their children's education can impact parents as they feel

they are failing their children

Reducing isolation, especially connect.

Cognitive stimulation and soc

Online face to face calls, grou

information via the internet a

Not being able to join online

Datawrapper

 PIKTOCHART

infogram

# Using Datawrapper to create charts

The screenshot shows the Datawrapper interface. At the top, there are navigation links: '+ New Chart', 'New Map', 'New Table', 'River', 'Login / Sign Up', and 'Language'. Below this is a progress bar with four steps: '1 Upload Data', '2 Check & Describe', '3 Visualize' (highlighted in red), and '4 Publish & Embed'. On the left, there are tabs for 'Chart type', 'Refine', 'Annotate', and 'Layout'. Under 'Chart type', various chart options are listed: Bar Chart, Split Bars, Stacked Bars, Grouped Bars, Bullet Bars, Dot Plot, Range Plot, Arrow Plot, Column Chart, Grouped Column Chart, Stacked Column Chart, and Lines. The main area displays a horizontal bar chart titled 'What are digitally excluded people missing out on?'. The legend indicates 'No of times coded' with a pink square. The chart shows the following data:

Category	No of times coded
Social Contact	20
Covid-19 Updates	15
Family Support	12
Home Learning	10
Wellbeing Activities	9
Health Services	8
Everyday Services	8

At the bottom of the chart area, there are links for 'Download image' and 'Created with Datawrapper'. A blue circular help icon with a question mark is located in the bottom right corner of the interface.

Your task will be to recreate this chart using the [digital inclusion data](#) & [Datawrapper](#) ([Watch our demo here](#) – [join our training on July 11th](#))

## Last Christmas we gave them our heart

As we reflect on 2019, the one thing that springs to mind is how many partnerships we are part of. We have always valued collaboration - but this year many of the relationships we've built over the years progressed into more formal partnership working, delivering new projects and services.

We are a small team (only 5 of us to be precise!) and working with our partner organisations helps us do so much more. It can broaden our reach, connect organisations across London, offer additional expertise, create new funding opportunities and widen our offer and impact.

So here's our Christmas ode to some of the great organisations we have been working with, with an accompanying resource.

## 'One more sleep' we cried

Delivering Digital Leadership 101 workshops for CEOs in London from dawn until dusk, in 7 weeks, was pretty tiring. Our awesome partners The Foundation for Social Improvement and London Plus were on hand to help us reach out, identify our tips and findings throughout the UK. Cheers! And thank you London rose to the occasion (more on them later..)

[Download resources to use with you](#)

## We'd walk 2,000 miles for DataKind UI

From the Windrush scandal to deportations of rough sleepers, the challenges facing our communities are many and varied.

## It was the most wonderful time of the year connecting Kingston's residents

OK so there are always teething issues when implementing a new system, but working with Kingston Voluntary Action, the Royal Borough of Kingston and other local partners, Connected Kingston was a great example of a cross sector system wide approach to social prescribing. We were proud to contribute our digital expertise, supporting organisations to list their services and running training for more than 100 Community Champions.

[Get yourself listed on Connected Kingston](#)

## We were rocking around London thanks to our infrastructure partners

You're the fire in our hearth and the tinsel on our tree - you know what local groups need and it's been a joy to work together to ensure small but vital local charities can access appropriate digital support. You enabled us to run key digital awareness and training sessions to groups from as far afield as Enfield and Bexley, to Hillingdon and Greenwich, with too many to mention in between! A big hug to you all - you have a special place in our hearts.

[Get in touch about your training needs](#)

[Kingston Churches Action on Homelessness](#) storytelling annual reviews follow a theme every year and are introduced by a client, volunteer or stakeholder (using Canva)
