Biased / unbalanced questions

1. Leading questions: prompt a respondent towards providing an already-determined answer

- **2. Loaded questions:** contain a controversial assumption or value judgement
- 3. Double-barrelled questions: merging two questions in one
- **4. Unbalanced questions:** do not present the respondent with all reasonably plausible sides of an issue
- **5. Overly broad questions:** there are either **too** many possible answers, or good answers would be **too** long for this format

Biased /unbalanced answer options AVOID USE INSTEAD
