

## Digital Foundations - Autumn / Winter Training Programme

There are so many ways that basic 'digital' infrastructure can help you run your organisation and support the people and communities you care about.

**Superhighways** has developed a programme of short online training sessions to help staff, volunteers and trustees of micro charities and community groups, gain the confidence and skills to make the most of a range of digital tools and technology that may best suit your organisation.

Hear from others who've attended our training already:

## "I've never found anything so informative, educational and useful. The trainers were supportive, clear and interesting and gave me confidence to try new things and explore possibilities to use different tools."

"It was at my level and built from the quite limited knowledge I have. I was not made to feel in any way stupid for having limited knowledge and skills, as has sometimes happened elsewhere, and that made it possible to relax and so learn."

Session title	Day	Date	Time	Booking link
Intro to Cyber Essentials certification	Thu	28/09/2023	10 – 11.30 am	Book your space
Need a new website? Information session about our training opportunities	Wed	11/10/2023	11.30 – 12 midday	<u>Book your space</u>

## One-to-one support

We are also offering one to one support for your small London charity or community organisation. Email <u>info@superhighways.org.uk</u> letting us know as much detail about your tech / digital issue as you can, and we'll get back in touch to arrange a call.

This training and support is funded by the National Lottery Community Fund as part of the Digital Foundations partnership led by Superhighways, with Refugee Council, HEAR Network and Voice Online Communities.
